Torn between loyalty and love, a young prince will learn how much he's willing to sacrifice as he tries to destroy the rebellion that threatens his throne in the exhilarating sequel to Bonds of Brass. Gal's destiny has always been clear: Complete his training at the military academy, prove his worth as a royal successor, and ascend to the galactic throne. When a failed assassination plot against Gal sends him and Ettian—his infuriatingly enticing roommate—on a mad dash through the stars, Gal's plans are momentarily disrupted. But he was born to rule the Umber Empire, and with Ettian by his side, nothing will stop him from returning home and crushing the growing insurgency threatening his family's power. Yet nothing is ever that simple in war—or in love. Gal is captured by the rebellion during a skirmish and faces public execution, his grand fate cut short. To save Gal's life, Ettian does the unthinkable: He reveals himself as the secret heir to the fallen Archon Empire and rightful leader of the rebellion . . . and, therefore, Gal's sworn enemy. Now a political hostage in this newly reignited conflict, Gal must use his limited resources to sabotage the rebellion from within, concoct an escape plan, and return to the empire he's destined to lead. And if that means taking down the man he thought he loved? All the better.

When a brilliant point of light appears in the southern sky, Nathan Oakes is finishing his early-morning run in Central Park, Kathy Stratton is preparing to give a speech in San Francisco, Nikki Jamison is dreaming peacefully in her home near Phoenix, and Oscar Villalobos is grappling with the guilt that fuels his nightmares. None are yet aware of how much that strange light in the sky will change their lives. By the time it begins sending a digital signal, though, Kathy Stratton, science advisor to the president, knows that a turning point in the human story has been reached. Aliens have made contact. Soon after they land on a rural stretch of road west of Phoenix, Nikki Jamison and Oscar Villalobos slip unnoticed into the tiny red spaceship and learn the hard way that Zeke and Simon aren't the friendly back-slappers they pretend to be. Trapped in a weird, impossibly vast labyrinth inside the ship, knowing their chances for survival are slim, Nikki and Oscar discover the truth about the aliens. They also learn about the complex network of interaction between sentient species throughout the universe, and the elegantly simple system of law that holds it all together—and they learn that a partnership with Zeke and Simon will not bring riches to the human race. Instead, it will bring extinction.

A young pilot risks everything to save his best friend—the man he trusts most and might even love—only to learn that his friend is secretly the heir to a brutal galactic empire. “An exciting space opera full of action and adventure that explores the bonds of loyalty and love, and what happens when they are stretched to their limits.”—Rebecca Roanhorse, Nebula and Hugo award-winning author of Trail of Lightning Ettian's life was shattered when the merciless Umber Empire invaded his world. He's spent seven years putting himself back together under its rule, joining an Umber military academy and becoming the best pilot in his class. Even better, he's met Gal—his exasperating and infuriatingly enticing roommate who's made the academy feel like a new home. But when dozens of classmates spring an assassination plot on Gal, a devastating secret comes to light: Gal is the heir to the Umber Empire. Ettian barely manages to save his best friend and flee the compromised academy unscathed, rattled that Gal stands to inherit the empire that broke him, and that there are still people willing to fight back against Umber rule. As they piece together a way to deliver Gal safely to his throne, Ettian finds himself torn in half by an impossible choice. Does he save the man who's won his heart and trust that Gal's goodness could transform the empire? Or does he throw his lot in with the brewing rebellion and fight to take back what's rightfully theirs? Praise for Bonds of Brass “Skrutskie's Bonds of Brass is a high-octane galactic adventure replete with heart, drama, and a keen edge of pain.”—Caitlin Starling, author of The Luminous Dead “Full of breathless action and dazzling characters, Bonds of Brass is space opera at its most exciting.”—Adam Christopher, author of Stranger Things: Darkness on the Edge of Town
