Examines Chinese engagement with African nations, focusing on (1) Chinese and African objectives in the political and economic spheres and how they work to achieve them, (2) African perceptions of Chinese engagement, (3) how China has adjusted its policies to accommodate African views, and (4) whether the United States and China are competing for influence, access, and resources in Africa and how they might cooperate in the region.

This book addresses important issues of speech processing and language learning in Chinese. It highlights perception and production of speech in healthy and clinical populations and in children and adults. This book provides diverse perspectives and reviews of cutting-edge research in past decades on how Chinese speech is processed and learned. Along with each chapter, future research directions have been discussed. With these unique features and the broad coverage of topics, this book appeals to not only scholars and students who study speech perception in preverbal infants and in children and adults learning Chinese, but also to teachers with interests in pedagogical applications in teaching Chinese as Second Language.

Harmoniously merging the mind and the body, Hsing-I Ch'uan is simultaneously one of the most simple and most complex of the Chinese martial arts. The five forms, based on the Chinese concept of the five

elements, provide a toolbox of techniques that the skillful Hsing-I practitioner uses to box with himself, channeling ch'i into spirit and spirit into mindful stillness. From this synthesis of external and internal forces springs new energy and true ability. Engagingly written and amply illustrated with black and white photographs, Robert W. Smith's primer includes the history and meaning of Hsing-I, detailed instruction in the five forms and twelve animal styles, and cogent advice from the masters. First published almost 30 years ago, *Hsing-I: Chinese Mind-Body Boxing* was among the first books on Hsing-I and remains one of the best.

This report analyzes international and domestic factors that will affect China's approach to nuclear deterrence, how those drivers may evolve over the next 15 years, and what impact they are likely to have.

The Washington Manual of Critical Care is a concise pocket manual for physicians and nurses. It is distinguished from the multitude of other critical care handbooks on the market by its consistent presentation of algorithms displaying the decision-making pathways used in evaluating and treating disorders in the ICU. The new edition transitions to a full color format and will include coverage of Deep Venous Thrombosis/Pulmonary Embolism, fetal-maternal critical care, *C difficile* infection, and alternative hemodynamic monitoring.

This book outlines the history and techniques of Pa-kua—a style of boxing based on the eight (pa) trigrams (kua) of the I Ching. This martial arts guide gives a thorough account of the philosophy behind the art. It also presents to the West for the first the orthodox style of the last Chinese Pa-kua master Wang Shu-chin. Described in great detail and fully illustrated are the basic techniques, the eight palm shapes, and the eight traditional methods of "walking the circle." Guided by this easy-to-follow text, the student of Pa-kua can probe deeply into the hitherto hidden secrets of one of the most complete systems of self defense ever developed.
