While carrying more speculative weight, the Nasdaq's record high and EURUSD's overtake of a historical technical level are unlikely to keep better pace than Bitcoin's 20,000 break

There are many books that promise to teach you highly profitable trading systems, to show you how easy making money trading the forex really is. This is not one of those books. Forex for Ambitious Beginners will not turn you into a profitable trader, only you can do that, through practice, study and persistence. But this book will help you avoid many, many mistakes beginning traders make. You will learn essential elements of successful forex trading, such as how to protect your trading capital, how to find a forex trading strategy that matches with your trader personality and how to build your own trading system and tweak it for optimum performance. The book will also touch on important basics about the FX market that traders need to know about. Who the players on the forex are for instance, and which factors influence the most important currencies. Other topics include specific forex trading strategies, popular technical indicators, how to read candlestick charts and how to recognize chart patterns. Forex for Ambitious Beginners is about minimizing risk and maximizing potential, about looking for ways to continuously bend the odds in your favor. It will provide you with a solid foundation on which you can start building your forex trading career. The book concludes with a challenging quiz, offering detailed explanations of the correct answers. In short, if you're ambitious and want to really learn how to trade the forex -- as opposed to being spoon-fed a fantasy about some super strategy -- then Forex for Ambitious Beginners is for you. Covers currency trading conventions and tools Provides an insider's look at key characteristics of successful currency traders Explains why it's important to be organized and prepared Offers guidance on trading pitfalls to avoid and risk management rules to live by Whether you're just getting started out in the foreign exchange market or an experienced trader looking to diversify your portfolio, Currency Trading For Dummies sets you up for trading success.

WORLD WAR II THROUGH THE EYES OF ITS LEADERS, COMMANDERS AND PERPETRATORS "World War II: Six Years That Changed World History," a short history of the most violent conflict in human history, is more than a regular overview. Rather than trying to cover every major event of the Second World War, it alternates between telling the general story and zooming in on specific, game-changing events, the reasons behind key decisions and the thinking of leaders, commanders and perpetrators. Some of the major battles discussed: The Battle of Britain Operation Barbarossa The Battle of Stalingrad The Attack on Pearl Harbor Apart from the war in Europe and the war in the Pacific, the Holocaust and the building of the atom bomb are also more extensively covered. How and why the Nazi persecution of the Jews went from isolation, oppression and emigration, to concentration and finally extermination is told by looking at: Nazi ideology Nazi laws The attitude of other countries in the 1930s Quotes from books, memos and remarks by some of the main perpetrators, such as Adolf Hitler, Reichsmarschall Hermann Goring, Auschwitz Commandant Rudolf Hoss and SS-Gruppenfuhrer Reinhard Heydrich, who ran the Einsatzgruppen, a.k.a. SS death-squads. The creation of the atom bomb follows the path from the discovery of nuclear fission to the early British research to develop a nuclear weapon, code-named Tube Alloys, the American Manhattan Project and finally the decision to drop the bomb on the Japanese cities of Hiroshima and Nagasaki in August 1945. "World War II: Six Years That Changed World History is a well-sourced, gripping and at times chilling overview of a war that forever changed who we are and how we view ourselves. If you are looking for a compelling read about those pivotal six years between 1939-1945, this book is for you." Get your copy now."

EXPERT, DEPENDABLE FOREX COACHING—UPDATED TO KEEP YOU AHEAD IN AN EVOLVING MARKET The Forex Trading Course is the systematic guide aspiring traders need to enter the market with the confidence and skills necessary to generate wealth. Masterfully written so both basic and complex concepts are readily accessible, this all-inclusive training tool outlines a practical course of action to develop strategies integrating fundamental and technical analysis. It also demonstrates how to identify high-probability patterns and trades, adjust your trading plan for different account sizes, use emotional intelligence to improve trading performance, and much more. This second edition is fully revised to address: • Changes brought about by quantitative easing and central bank intervention—including greater spikes and disruptions in the forex and the influence of global growth and inflation on the market • Using binary options with forex trades to make accurate predictions on direction, targets, and stops • Social media trading and how to navigate herding behavior and swarming patterns • The latest insights and trends in cryptocurrencies such as Bitcoin Complete with practice assignments to reinforce the material and a supplemental website to enhance your knowledge, The Forex Trading Course, Second Edition unlocks your optimal potential for profitable currency trading.

Forex For Beginners is the prequel to my first two books, A Three Dimensional Approach to Forex Trading, and A Complete Guide to Volume Price Analysis. It is your primer to the world of forex. It has been written to lay the foundations and provide the framework for getting started in the world of forex, in what I believe is the correct way. My other books then build on what you will learn here, to further develop your trading skills and knowledge. What I try to do in all my books, is to show you how to apply that knowledge to help you become a more confident trader. After all, learning is all well and good, but if we are not taught how to apply that knowledge in a practical way, then it is of little use. It is the application of knowledge that empowers, and this is what I have tried to do here, and in my online training rooms, and all my books. There are of course many books about forex trading. What is different about this book, is the focus on those aspects of trading which I believe are fundamental. After all, there are only two questions we need to answer when considering a position in the market:- What is the risk on this trade - high, medium or low? What is the financial risk on this trade? The first is the hardest question to answer, and the book will explain in detail the analysis and approach to use, in order to answer this question with confidence. The second question is more straightforward and is answered provided you have an understanding of risk, money management and position sizing in relation to your trading capital. Again, this is covered in detail in the book. As the tag line on the front cover says 'What you need to know to get started, and everything in between' which really sums up what you will learn. The book explains everything, from the pure mechanics to the trading methodology that I advocate, and which I have used in all my own trading and investing for over 17 years. Forex For Beginners is also dedicated to all those traders who have asked me to write such an introduction, based on my knowledge and my methodology. This book is for you.

Have you lost money trading the Forex Markets? Or are you consistently winning and making a regular income with your trading? Are you watching the markets without enough confidence to enter trades? Are you spending money in third-part systems that don't seem to yield you any results? Are you wasting your

money trading without enough knowledge? Do you want to understand the systems and tactics advanced and professional Forex traders use to build their accounts? If you aren't achieving the results you want from Forex Trading this book will help you get there faster and easier. If you only knew that by tweaking and fixing certain aspects of your trading you could literally start making money right away. The knowledge and information contained in The Black Book Of Forex Trading was learned by me after several years of losing, trying and testing. Spending thousands in systems, courses and coaches to get to where I am now. You could easily learn the core of what I know by reading this book. And literally change your trading forever since the concepts are simple and easy to follow. What actionable and realistic Forex tactics will you learn? -How to stop struggling with the markets -How to STOP losing money! -Gain enough confidence to trade, knowing that you have the right knowledge and the numbers are in your favor -Adapt any of my THREE proven, powerful yet simple forex trading strategies to your own needs (day trade, swing trade or position trade) -Start earning money CONSISTENTLY -Become a profitable trader in four months or less -Fund your financial freedom and the lifestyle you want with your trading All of this while you develop a real Forex System to win constantly Trading doesn't have to be complicated to make you money Aimed for beginner to intermediate traders who can't yet become successful in their trading, this book will guide you and help you answer many questions normally other books, courses and gurus won't cover. Written by a real trader who lost most of his life savings due to bad trading, only to make them back many times over after learning a Proven, Powerful yet Simple method that is COMPLETELY laid out for you in this book, no secrets kept. This book covers the three main areas of trading: 1- Strategies - how to adapt a winning strategy to your personal lifestyle and needs (no black box or spaghetti charts full of indicators and lines, just simple and pure price action, easy to read and follow) 2. Money Management - How to optimize and maximize your winnings without risking too much 3. Get control of your emotions and become a better trader - Why most traders let their emotions rule their trading and a few simple steps to control how your mind play tricks to you while you trade. At the end of the book you will find a very simple to follow yet very powerful blueprint to plan your next months, get control of your financial future and achieve your trading success. Download your Copy of The Black Book of Forex Trading NOW and change your trading forever P.S. You'll be able to notice a difference within 24 hours

Forex Trading The Complete Series! As is well known, currency markets are determined by news. However, since news is rare, most currency pairs move sideways 80% of the time. In other words: it is very difficult to trade currencies profitably with trend strategies. The "Forex Trading" series therefore deals with strategies that are specifically designed for sideways markets. Heikin Ashi Trader also discusses why traders who specialize in forex trading tend to trade only one strategy at a time. They do this because they believe it is superior to other trading methods. Unfortunately, this approach makes them vulnerable to the ups and downs of this single strategy. However, by distributing profit and loss over several strategies, the trader creates an indifference towards the series of losses of each single strategy. If he looks at it as an investment security in his portfolio, just like a stock or a fund, he gets a more objective view on what is going on in the markets. Part 1: Two round number strategies Introduction Strategy 1: The round number strategy Strategy 2: The Stop Hunting Strategy Consider forex trading like a probability game Part 2: Two strategies with weekly pivots How to trade the weekly Pivots Strategy 1: Trade the Pivot Strategy 2: The "last 20 Pips" Strategy Should I change the parameters if trading is not going well? Part 3: Trading with the Weekly High and Low Introduction to trading with the weekly high and low Strategy 1: Chase the Weekly High and Low Strategy 2: Weekly High and Low Stretch Practical questions Part 4: Trade several strategies simultaneously 1. Why you should trade several strategies at once! 2. Less volatility in the capital curve 3. How many strategies should you trade simultaneously? 4. Is it possible to diversify, even with small accounts? 5. When should you start using leverage? 6. Forex trading is a business

Just a decade ago, the Foreign Exchange was a market reserved for a select few. Now, anyone can actively trade in this profitable market—even those with no formal financial education. Enter James Dicks, a leading FOREX expert and educator who cut his teeth in this burgeoning market and wants to share his years of experienced wisdom with you. FOREX Trading Secrets is a one-stop sourcebook packed with everything a trader needs to quick-start success in a 24-hour market. In addition to covering every fundamental aspect of the FOREX, this hands-on guide provides hard-won tools and strategies from a seasoned trader, who helps you minimize your exposure to the inherent risk in this unique market. A useful volume you'll turn to again and again, FOREX Trading Secrets features specific examples of proven trading strategies working in the real world, a simple and profitable technique for money management, and confidence-building skills for creating your own source of income. If you have never traded the FOREX before, FOREX Trading Secrets is the place to start. It covers the essential basics, including all major currency pairs, the mechanics of trading, how to place a trade, and deciding what type of trader you are. Experienced traders gain expert insight into the fundamentals, as well as such advanced topics as creating a successful trading plan, managing risk, mastering your emotions, and building your portfolio. You will benefit from An insider's clarification of the Carry Trade Seeing technical indicators and patterns through a master's eyes The secrets to FOREX diversification A detailed explanation of the author's personal trading approach A Trader's Ten Commandments There is no holy grail of FOREX trading, but with FOREX Trading Secrets, all you need is practice to build a powerful trading toolbox for wealth security in the world's biggest financial market.

FOREX - The Basics Explained in Simple Terms (includes a FREE Bonus Trading System and also links through to video content instructions on how to upload the indicators provided for the system) This is not an upsell to any other product or service My knowledge of currency trading extends over a 14 year period and has evolved from the old fashioned manual charting when I first started in 2002, to trading

on multiple screens and entering the arena of automated trading. During this time, I have developed and shared many trading systems for free, and I have also assisted many new Traders through my various blogs and forum participation. This book is for those of you who are just starting to consider trading Forex but don't know where to start, given the abundance of information on the internet. It is THE first book to read to have an understanding of the very basics. I have deliberately kept the explanations simple and straightforward so everyone can understand it. Here is a preview of what is included: What is Forex? Advantages to Trading Forex When is the Forex Market Open? Forex Pairs - What do the numbers mean? Where Do We Trade Forex? What About Choosing a Broker? Important Information for US based Traders Lot Size and Equivalent Pip Value Information on Risk News and Fundamental Analysis Technical Analysis Risk-Reward Ratio Types of Orders How Many Pips is Enough? Trading Psychology Day Trading or Longer Term Trading? Keeping a Journal or Diary Get started now, and gain a basic understanding of how it all works with this book, BEFORE you jump into the world of Forex Trading and you are welcome to join me on my newly created Facebook page:
