An enthusiastic verve--"brio" some could say--marked both Ignaz Kolisch's personality and his games. This book documents the life of the Hungarian chess champion (1837-1889) and successful financier, setting it in the cosmopolitan framework of mid-19th century Europe. The text is enriched by about 125 or so gleanings about the lives of his competitors (including Arnous de Riviere, Anderssen, Morphy, Mackenzie, Paulsen, Falkbeer, Rosenthal, Steinitz, Winawer). More

Online Library Gli Scacchi Ipermoderni

than 300 specimens of his play are presented--by far the largest collection ever--complete with sources and coeval annotations, translated from many languages. Several widespread and long-standing errors are corrected. A work deeply researched among sources in many languages, the book serves also as a record of European chess in the late 1850s through the 1880s.

La logica degli scacchi è una guida utile tanto ai principianti quanto ai giocatori già esperti. I primi sono accompagnati, passo dopo passo, dalla conoscenza elementare delle regole e del movimento dei pezzi alla corretta impostazione delle linee di gioco. I secondi troveranno materia di riflessione per approfondire le ragioni e la logica che stanno alla base delle

Online Library Gli Scacchi Ipermoderni

tecniche e tattiche più sofisticate. Il manuale, oltre a spiegare i vari aspetti del gioco, si pone infatti come un vero trattato di “logica applicata agli scacchi”. Questo senza escludere il ricorso all’intuizione e alla creatività, essenziali per immettere sulla scacchiera elementi dinamici che aprono la via a varie alternative di gioco, spesso “ugualmente possibili”, e trasformano la partita in uno scontro fra volontà, esaltando la componente agonistica degli scacchi. Certificato dalla Società Scacchistica Milanese, chiaro nell’esposizione e corredato di puntuali illustrazioni, La logica degli scacchi è certamente il più aggiornato e completo manuale italiano sull’argomento, nonché un autentico corso completo, volto a far comprendere, ai vari livelli, la vera essenza del gioco.

Alekhine's Controversial Masterpiece Finally in English! For decades, Alexander Alekhine's account of New York 1927 was at the top of the list of works that should have been rendered into English but unaccountably were not. This is unlike any other tournament book ever written. Not only do you have one of the greatest annotators of all time rendering some brilliant analysis, but he melds it with an exceptional agenda, an anti-Capablanca agenda. And since he wrote it after defeating Capablanca in their marathon match, he sounds like a sore loser who became a sore winner. So, this is just a mean-spirited book,

Online Library Gli Scacchi Ipermoderni

right? Nothing of the sort. Alekhine goes beyond elaborate move analysis and offers deep positional insights and psychological observations. Nikolai Grigoriev, in his foreword to the 1930 Russian edition of this book, pointed out how Alekhine broke new ground by underlining the critical moments of each game. Why Alekhine's work was published in German, in Berlin in 1928, and not in English, is unclear. But now, after more than 80 years, it's finally available to the largest audience of chessplayers. It's about time.

When Sarah leaves him - heartbroken by their inability to conceive - Pietro reverts to a younger self, leaving the dishes unwashed, his bed unmade and the post unopened. Soon

Online Library Gli Scacchi Ipermoderni

afterwards, Sarah confesses that she is pregnant, but from a casual encounter. She comes to rely on Pietro's mother for support, leaving all three in a painful limbo, unable to move on or return to the way things were. Into the void falls Olmo, an old man haunted by memories of war. At first he provides a distraction, but when he asks Pietro to travel to Russia on his behalf, to right a wrong from his past, he offers this most troubled of young men the chance of a new beginning.
