Bestselling novelist James Rollins brings to life the adventures of Jake Ransom, who became an orphan when his archaeologist parents disappeared on a dig three years ago. They left behind tokens—half of an ancient coin for Jake, and the other half for his sister Kady—that fit perfectly into one of their famous discoveries. When everything falls into place, Jake and Kady find themselves in the mysterious, bizarre world of Pangea—home of vicious raptors, bloodthirsty plants, and dark Mayan and Egyptian rituals. And whatever caught their parents is still hungry. The books described as "Indiana Jones for tweens" are perfect for fans of Alex Rider, Percy Jackson, and National Treasure. Includes Jake Ransom and the Skull King's Shadow and Jake Ransom and the Howling Sphinx.

Daring adventurer-archaeologist Indiana Jones returns in an all new, action-packed saga, in the novelization of the fourth, long-anticipated Indiana Jones movie. 300,000 first printing. (A Lucasfilms/Paramount Pictures film, written by David Koepp from a story by George Lucas, directed by Steven Spielberg, releasing May 2008, starring Harrison Ford, Karen Allen, Cate Blanchett, Shia LeBeouf, John Hurt, Ray Winstone, & Jim Broadbent)

A sinister fire in a Copenhagen bookstore ignites a relentless hunt across four continents. Arson and murder reveal an insidious plot to steal a Bible that once belonged to Charles Darwin, the father of evolutionary theory. And Commander Gray Pierce dives headlong into a mystery that dates back to Nazi Germany . . . and to horrific experiments performed in a now-abandoned laboratory buried in a hollowed-out mountain in Poland. A continent away, madness ravages a remote monastery high in Nepal, as Buddhist monks turn to cannibalism and torture. Lisa Cummings, a young American doctor investigating the atrocity, is suddenly a target of a brutal assassin working for clandestine forces that want the affair buried at any cost. Lisa's only ally is a hidden pilgrim, Painter Crowe -- director of SIGMA Force, an elite command of American scientists and Special Forces operatives -- who is already showing signs of the baffling malady that destroyed the minds of the monks. Now it is up to Gray Pierce to save both Painter and Lisa -- and a world in jeopardy -- as SIGMA Force races to expose a century-old plot that threatens to destroy the current world order . . . and alter the destiny of humankind forever. Combining the historic scope of *The Da Vinci Code* with the relentless thrills of today's best action novels, James Rollins's *Black Order* is a classic adventure -- an ingenious and breathtaking tour de force that explodes with revelations . . . while offering a startling new view of our place in the grand scheme of existence.

An inexplicable explosion rocks the antiquities collection of a London museum, setting off alarms in clandestine organizations around the world. And now the search for answers is leading Lady Kara Kensington; her friend Safia al-Maaz, the gallery's brilliant and beautiful curator; and their guide, the international adventurer Omaha Dunn, into a world they never dreamed existed: a lost city buried beneath the Arabian desert. But others are being drawn there as well, some with dark and sinister purposes. And the many perils of a death-defying trek deep into the savage heart of the Arabian Peninsula pale before the nightmare waiting to be unearthed at journey's end: an ageless and awesome power that could create a utopia...or destroy everything humankind has built over countless millennia.
