Presents information about the history, economy, population, topography, attractions, and key people from each of the fifty states and Washington, D.C., and provides color maps showing the counties and major roads of each.

This folder contains all the resources you and your students need to learn about Ellis Island on the web.

Colin O'Brady's awe-inspiring, New York Times bestselling memoir recounting his recovery from a tragic accident and his record-setting 932-mile solo crossing of Antarctica is a "jaw-dropping tale of passion and perseverance" (Angela Duckworth, New York Times bestselling author of Grit). Prior to December 2018, no individual had ever crossed the landmass of Antarctica alone, without support and completely human powered. Yet, Colin O'Brady was determined to do just that, even if, ten years earlier, there was doubt that he'd ever walk again normally. From the depths of a tragic accident, he fought his way back. In a quest to unlock his potential and discover what was possible, he went on to set three mountaineering world records before turning to this historic Antarctic challenge. O'Brady's pursuit of a goal that had eluded many others was made even more intense by a head-to-head battle that emerged with British polar explorer Captain Louis Rudd-also striving to be "the first." Enduring Antarctica's sub-zero temperatures and pulling a sled that initially weighed 375 pounds-in complete isolation and through a succession of whiteouts, storms, and a series of near disasters-O'Brady persevered. Alone with his thoughts for nearly two months in the vastness of the frozen continent-gripped by fear and doubt-he reflected on his past, seeking courage and inspiration in the relationships and experiences that had shaped his life. "Incredibly engaging and well-written" (The Wall Street Journal)-and set against the backdrop of some of the most extreme environments on earth, from Mt. Everest to Antarctica-this is "an unforgettable memoir of perseverance, survival, daring to dream big, and showing the world how to make the impossible possible" (Booklist, starred review).

In this book, you will find out all about Martin Luther King, Jr., before he became famous.

Conditions on Earth are becoming more and more extreme and kids want to learn about it! Is it true that smoke from wildfires can travel thousands of miles? Yes! If a wildfire is large enough, wind can blow smoke from the West Coast to the East Coast of the United States! INSIDE, YOU' LL FIND: • How wildfires start, how they spread, and how researchers are studying wildfires in order to keep people safe; • A hands-on activity, a timeline, photos, diagrams-and how specially-trained firefighters fight the flames; • Surprising TRUE facts that will shock and amaze you! This new set in the ongoing A TRUE BOOK series will answer all of kids' questions about nature's most dangerous and destructive disasters! With an engaging layout, and spectacular photos, illustrations, diagrams and infographics, the past, present and future of extreme phenomenon happening on Earth will be explained. Readers will discover causes and consequences, as well as the cutting-edge science developed through the centuries to forecast them. First-hand accounts will bring science to life, and a special section will teach kids how to prepare for these extreme events.
