'...the plain English guide to the assessment process with excellent examples. I am sure this book will be the standard guide for many years to come.' - Alistair Graham, Former Chairman, Training and Development Lead Body. '...the content now reflects the increased demands of the standards and the greater profile that assessment and verification has, compared to then.' - David Morgan, Director of Marketing and Communications, Employment National Training Organisation. A best-seller, first published 10 years ago as "The NVQ and GNVQ Assessor Handbook", this third edition of an essential book remains a user-friendly, jargon-free guide. All those involved in the assessment of candidates working towards national qualifications

require accreditation themselves. Fully revised and in line with the new Learning and Development standards, this highly regarded book provides the fundamental information, practical advice and background knowledge for anyone wishing to obtain the assessor, or internal verifier qualifications. Contents include: the context of NVQ quality assurance; overview of key changes affecting the assessment and verification of NVQs; knowledge assessment for assessors and internal verifiers; requirements for assessors using a range of methods and observational assessors; requirements for internal verifiers; assessment and internal verification in practice; and tips for candidates. "The NVQ Assessor and Verifier Handbook" illustrates how to perform efficiently, by giving practical advice on the assessor and verifier awards to both candidates and trainers.

Places an emphasis on the development of practical beauty skills, guiding students through the course with clear explanations, illustrations, and practice tips. This title contains chapters on professional roles and responsibilities, including health, hygiene, and safety. It also covers cosmetic, skin and nail disorders in full colour.

This candidate handbook covers all the relevant knowledge and skills

to pass the S/NVQ level 2 in Hairdressing. It contains details on all types of hair, case studies and activities, and other key points.

Packed with detailed and reliable guidance, samples of completed documentation and real-life case studies, this essential handbook – the only book available for NVQ assessors and verifiers – gives a template for success. From the assessor's point of view, it shows the standards expected to ensure objectivity and consistency when assessing and marking the work submitted by the candidate. For the verifier, it gives a detailed template for delivering absolute consistency across assessors. For the candidate, it shows what is expected by the assessor in terms of presentation of work, recording of documents and the correct submission of material. This new edition also includes the latest knowledge requirements of the Professional Standards for Teachers, Tutors and Trainers in the Learning and Skills Sector Domain E: Assessment.

Candidates working towards NVQ Level 3 Care will now be taking the Promoting Independence specialist route in order to work with the elderly or those with special needs. This student textbook prepares candidates for the examination.

This book provides an account of the curricular consequences of the outcomes approach to education (NVQs GNVQs etc). It contains contributions from leading experts in the field and, as such, is likely to become the core text in this area. An initial discussion of the main themes leads the reader into a discussion of key ideas and the theory behind the Outcomes approach covering, in addition, issues concerning standards and quality. Areas of the curriculum covered include assessment, modularization, flexible learning and work-based learning, higher level competences and the autonomous learner. It should be of interest to all concerned with the development of the curriculum, ranging from school sixth forms through further and higher education to professional industrial trainers with an interest in the development of education and training in the UK.

Printers nowadays are having to learn new technologies if they are to remain competitive. This innovative, practical manual is specifically designed to cater to these training demands. Written by an expert in the field, the Handbook is unique in covering the entire spectrum of

modern print media production. Despite its comprehensive treatment, it remains an easy-to-use, single-volume reference, with all the information clearly structured and readily retrievable. The author covers both traditional as well as computer-aided technologies in all stages of production, as well as electronic media and multimedia. He also deals with training, research, strategies and trends, showing readers how to implement the latest methods. With 1,200 pages, containing 1,500 illustrations - over half in colour - the Handbook conveys the current state of technology together with its specific terminology. The accompanying CD-ROM includes the entire manual in fully searchable form, plus additional software tools. Invaluable information for both beginners and "old hands" in printing works, publishing houses, trade associations, the graphics industry, and their suppliers.
