What kind of clay does Mr. Faraut use and where can I purchase it? Philippe prefers to use a low-fire (fires to cone 06), white earthenware (water-based) clay without grog. Clays are manufactured locally so one purchased in California will be different from one in New York. Ceramic supply shops are the best source for this type of clay.

representations of the face. Additional studies are included to show successful treatments of hair and drapery, as well as the effect of the aging process.

Covers modelling from casts, live models; measurements; frameworks; scale of proportions; compositions; reliefs, drapery, medals, etc. 107 full-page photographic plates. 27 other photographs. 175 drawings and diagrams.

Thorough step-by-step guide discusses anatomy of horse, lion, and bull; methods of construction; tools, materials, etc. Also comprehensive exposition of casting in plaster. 63 full-page photographic plates. 138 drawings and diagrams.

Sculpting the Figure in Clay is a comprehensive instructional guide to sculpting the human figure in clay. This all-inclusive volume lays out an easy-to-follow step-by-step method of blocking out the plane structure and anatomy of the posed figure. The author's unique approach utilises a geometric system consisting of blocks, simple shapes and guidelines, which instructs students in a new and instinctive sculptural style. Lessons in the book simulate the classroom experience. Sculptural concepts are illustrated through a sequence of dramatic photographs of the model, taken from every angle of the model in a given pose and the entire sculpting process is shown from start to finish, with accompanying text.

In this splendidly detailed, generously illustrated text, the well-known American sculptor Richard McDermott Miller introduces the art of modeling the human figure in two media known for their liveliness and spontaneity. Recognizing the needs of the beginner as well as the interests of the professional artist, the book masterfully puts you quickly in possession of the basic procedures you'll need to get started, provides specific details on materials and tools, and launches you into actual projects specifically designed to teach you sculptural skills. The book first analyzes the human figure and describes the way the sculptor translates the figure into the modeled form: finding a personal style; working from photographs or memory; working from life; and capturing gesture, proportion and anatomy. Mr. Miller then describes, step by step, how to work with wax, how to sketch a small figure in wax, how to model the figure on a wax armature, and the process of hollow wax modeling. He follows the same procedure as he introduces working with plaster, from mixing it to modeling a hollow torso. Many other important topics, from mold-making techniques to working with models to finding out where and how to buy materials and tools, are presented. Throughout, Mr. Miller emphasizes the practice, rather than the theory of sculpture, emphasizing that, apart from the artist's need for personal expression, sculpture is a physical task involving the manipulation of materials. His concentration on the sculptor's working problems makes this an unusually useful and valuable guide to sculpting the human figure. Dover (1987) unabridged, slightly updated republication of the edition originally published by Watson-Guption Publications, New York, 1971.

Kintsugi - named after the ancient Japanese art of mending broken objects with gold - is a novel about young women breaching boundaries, overcoming trauma, and challenging the social order. And about men surprised by women who are unconventional, unafraid and independent. It is the story of Meena,

rebellious and unexamined, and Yuri, as complex as Meena is naive. Of Hajime, outsider to two cultures, and Prakash, unable to see beyond his limited horizons. It is also the story of Haruko who has dedicated herself to her art, and of Leela who is determined to break gender roles and learn the traditional gold-craft of her community. Set between Japan and Jaipur, Kintsugi follows the lives of these characters as they intersect and diverge, collide and break and join again in unexpected ways. The result is a brilliantly original novel as profound as it is playful, as emotionally moving as it is gripping.

Artists have always been fascinated by the special challenge of capturing the character, personality, and likeness of their portrait subjects. For the sculptor, clay is certainly the most sympathetic medium. Daisy Grubbs demonstrates in thorough detail a proven method for fashioning clay into convincing portraits. The book is for the beginning as well as the more experienced sculptor. The newcomer will find every detail he needs to know to model a faithful likeness, while the more knowledgeable artist will discover another artist's approach sure to enlarge his own vocabulary and working methods.
