The International Survey of Library & Museum Digitization Projects presents detailed data about the management and development of a broad range of library special collection and museum digitization projects. Data is broken out by type of digitization project (ie text, photograph, film, audio, etc) size and type of institution, annual spending on digitization and other variables. The report presents data and narrative on staffing, training, funding, technology selection, outsourcing, permissions and copyright clearance, cataloging, digital asset management, software and applications selection, marketing and many other issues of interest to libraries and museums that are digitizing aspects of their collections.

In this book, noted web developer and long time WaSP member John Allsop offers practical examples to teach all you need to know about Microformats. Coverage details what Microformats are currently available and how to use them; the general principles of how they work; how to use Microformats with web sites and software that already support them; and how to create your own. The end of the book features a chapter full of anecdotes from many professional web designers and developers already using Microformats in their work today--what worked, what didn't, things to watch for--so you can learn from their experiences.

For anyone who has tried to capture a blazing sunset or catch the stark and simple beauty of bare tree limbs in winter, this manual will prove irresistible. Rather than providing ideas of what to photograph, Sheppard presents invaluable insider techniques and insights: use a histogram to get the ideal exposure, or white balance to create atmospheric images. Find out how to shoot crisp close-ups or awe-inspiring panoramic shots, and how to enhance pictures by using filters such as grads and polarizers. See how computer and image-editing software can turn ordinary images into extraordinary photos. Each section lists 10 Quick Tips for handling common outdoor photography challenges.

Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. Each and every issue is packed with punishing product reviews, insightful and innovative how-to stories and the illuminating technical articles that enthusiasts crave.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

A local Singaporean magazine dedicated to photography and videography.
