Prealgebra: Operations: Study Guide+SparkNotes

Most of these skills you learned in your Pre-Algebra course, but I'll review them here. If you're not sure if you need to review the basic skills, take the Algebra Readiness Test! It's only 30 questions and it won't take you long! Remember... math has a spiral effect. Each new skill builds on a previously learned skill.

Your Guide to Basic Algebra Skills

Since distances are never negative, the absolute value of a number is always positive (or equal to zero). In order to make the equation true, the expression inside the absolute value, $x + 5$, can equal either -3 or 3 since the absolute value of both values is 3 . Write two equations and solve each. $x + 5 = -3$
