The question-answer relationship (QAR) strategy helps students understand the different types of questions. By learning that the answers to some questions are "Right There" in the text, that some answers require a reader to "Think and Search," and that some answers can only be answered "On My Own," students recognize that they must first consider the question before developing an answer.

Question Answer Relationship (QAR) | Classroom Strategies

Pie Chart Pie charts are available to all closed questions such as multiple choice questions. It will show you the number of times an answer has been chosen, displaying both count and percentage.
