Aqueous ...

Water, the liquid commonly used for cleaning, has a property called surface tension. In the body of the water, each molecule is surrounded and attracted by other water molecules.

Download Ebook Water

And Its
Properties
Answer Key

However, at the surface, those molecules are surrounded by other water molecules only on the water side.

And Its
Explanation;

True: True.

Water has the
highest surface
tension among
common liquids
(mercury is
higher). Surface
tension is the
ability of a
substance to
stick to itself
. This is why
water forms
